International Manufacturer-Hardigg Industries Opens Operation in Maryland

Lanham, Maryland... Tenant focused firm, The Forsythe Group at RE/MAX Realty Services, recently represented Hardigg Industries. They are best known for their high quality cases sold all over the world. This is Hardigg's first office in the Washington, DC metro area.

The almost 11,000 square foot flex space is minutes to the Washington Beltway. This new location will allow Hardigg to focus on existing government clients and use the close proximity to defense and intelligence agencies to increase business opportunities.

The company currently has operations in Indiana, Massachusetts and Europe. The latest location at 5000 Philadelphia Way is seen as just the beginning of Hardigg's corporate presence in the Washington, DC region.

Please find more information on Hardigg Industries below.

Elizabeth-ashley and Jarrett K. Smith represented the Hardigg Industries. Michael Isen of The Michaels Company represented the Landlord.

Hardigg Industries:

For more than half a century, Hardigg has designed protective cases to safeguard sensitive equipment against the most severe conditions imaginable. Founded in 1954 by James S. Hardigg—a Dartmouth and MIT-trained engineer—Hardigg was the first company to manufacture an airtight, watertight, and virtually indestructible protective container. Today, we're the largest manufacturer of molded shipping cases in the world, producing high-performance cases for military, consumer, public safety, industrial, and professional use.

A Hardigg case is more than a mere container—it's a fully-integrated transport system. An unbreakable shell ensures that nothing gets past the outer defenses, while a customizable interior protective system keeps contents safe, stable, and secure. Together, they provide the best protection in the most extreme conditions and harshest environments on Earth.*

The Forsythe Group:

The Forsythe Group, LLC is a leader in commercial real estate. While the company represents tenants and landlords, our primary focus is tenant representation. We adopt the objectives of our clients, the users of commercial space, and dedicate ourselves to the achievement of their goals. We strive to understand our clients' long-term operational objectives and to orient our work to achieve these objectives, rather than simply fulfill a short-term real estate need.

We assist clients in every stage of the real estate process, representing them in the buying, selling, leasing, managing and valuing of assets. We deliver value every day. The Forsythe Group works hard to exceed our clients' expectations by maintaining standards of value-added services well above the norms in our industry. We seek not only to achieve what is asked of us, but provide more than is expected. **

RE/MAX:

Since its founding in 1973, when it introduced the maximum commission concept in residential brokerage, RE/MAX has steadily increased its presence in the commercial real estate market. There are now more than 3,800 affiliates in the RE/MAX system who specialize in commercial transactions, with commercial divisions operating in 1,200 markets worldwide.

Last year, these specialists completed nearly 30,000 commercial transactions, valued at more than \$13 billion, up 50% from 2004.

RE/MAX has recently expanded its marketing and technology support for commercial agents via the remax.net web site, including message boards, downloads of presentation materials, and property listings. ***
